

DATA BACKUP

Features & Benefits

Backup

State-of-the-art encryption, cross-platform support (Mac, Windows, and Linux), automatic backup, historical versioning, and retention of deleted files for as long as you may need them.

Sync

An easy, flexible, and secure solution for making sure all of your important documents, pictures, music, and movies are in constant synchronization among any number of your devices.

Share

Distribute all file types, including documents, music, movies, and pictures with whomever you like in private ShareRooms. You can create as many ShareRooms as you need, there's no limit.

Off-Site. Secure. Automatic.

Whether it's music, photos, project files or tax returns, everyone relies on data. But few people actually have the necessary safeguards in place to protect against data loss. Ocenture's data backup services provide enterprise-class remote data backup solutions, including backup, sync, and share capabilities that support data security and recoverability across an unlimited number of devices.

Automatic

Ocenture's data backup platform backs up files automatically, so the user doesn't have to.

Secure

All files are encrypted and backed up safely offsite offering peace of mind and security.

Affordable

With retail pricing starting at \$9.95/mo for 100GB, Ocenture's data backup is highly competitive.

Backup. Sync. Share.

We make backing up data simple and secure with state-of-the-art encryption, cross-platform support, automatic backup, historical versioning, and retention of deleted files for as long as a member may need them. Our flexible sync solution ensures all important documents, pictures, music, and movies are in constant synchronization among any number of devices. In addition, members can distribute all file types, including documents, music, movies, and pictures in private ShareRooms. Members can create as many ShareRooms as they need – there's no limit.

Data Backup Overview

The Data Backup secure storage solution provides state-of-the-art encryption, cross-platform support (Mac, Windows, and Linux), scheduled backup, historical versioning, and retention of deleted files for as long as you may need them.

Don't let Data Backup's ease-of-use fool you, under the hood, this software uses the most advanced de-duplication, encryption, file transfer, and storage technology available. With the Data Backup service you can rest easy knowing that your data is safely and securely stored in the cloud should anything happen to your computer, hard drive, CDs, or other storage media.

Data Storage Usage Details

Data Storage Usage:
11.08 GB (4%)

Storage Available: **11.08 GB of 250 GB**
Date of Last Backup: **April 27, 2012, 1:26 AM**

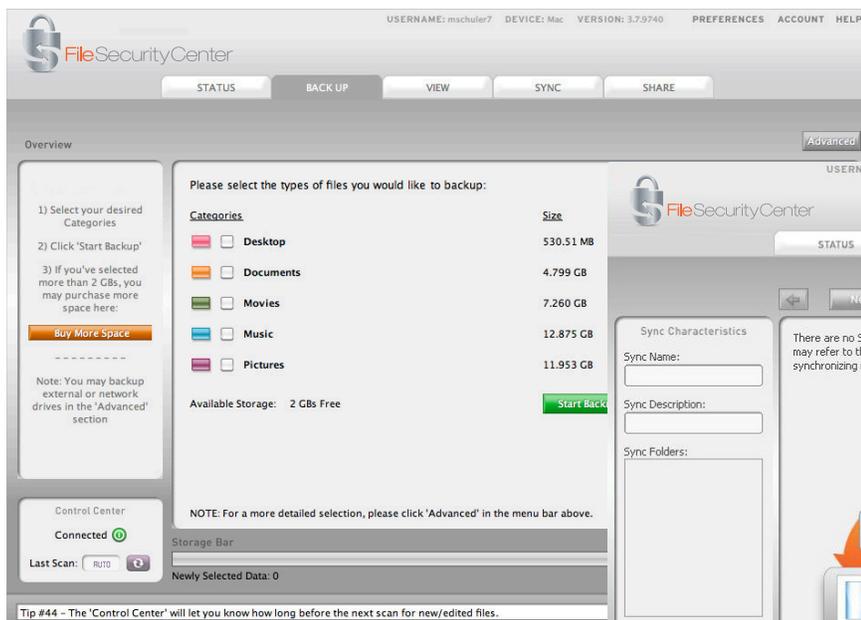

Days Since Last Backup:
5 Days
On Schedule

File Sync Overview

Data Backup has developed an easy, flexible, and secure solution for making sure all of your important documents, pictures, music, and/or movies are in constant synchronization among any number of your devices. Simply select two or more folders to synchronize and Data Backup will do the rest by automatically getting to work in the background.

File Share Overview

With Data Backup it has never been easier to share your files online. The Data Backup Share functionality allows you to distribute all file types (including documents, music, movies, pictures) with whomever you like in private ShareRooms. You can create as many ShareRooms as you need - reserving one for family members, another for colleagues, and a different one for each client. And Data Backup does not impose any file size limitations or restrictions on what you can share - so share freely.
